＊Vanilla Air do not accept;

①Li-ion battery which exceeds 1 battery of 300Wh or 2 batteries of 160Wh each can't be accepted if the batteries can be removed easily or the batteries are spare.

②Battery which has no function to prevent unintentional operation and the battery terminal cannot be isolated on condition that the battery can only be removed by using tool or asking the manufacturer to do

③If the Wheelchair Check Form and the battery that will be checked-in does not match.

＊Please check your wheelchair at the check-in counter, we will assist you to the aircraft with company wheelchair.

＊When checking your electric/battery-powered wheelchair, please inform airport ground staff wheelchair's battery types and battery disconnection and/or insulation instruction if required.

＊Some Over-Sized wheelchairs may not be accepted due to aircraft limitation (cargo door or compartment)

＊If the type and the watts of the battery is unknown, please contact the manufacturer for the Material Safety Data Sheet.

Please tell us the size and weight of your wheelchair.
